CONTENTS

Augmentation du niveau pour U(3). By JOEL BELLAÏCHE et PHILLIPE GRAFTEAUX .......................................................... 271
The Yang-Mills heat flow on the moduli space of framed bundles on a surface. By CHRISTOPHER T. WOODWARD ........................................... 311
Dual spheres have the same girth. By J.C. ALVAREZ PAIVA .......................................................... 361
Moduli spaces and Castelnuovo-Mumford regularity of sheaves on surfaces. By ADRIAN LANGER .............................................. 373
On the center problem for ordinary differential equations. By ALEXANDER B. RUDNYI .......................................................... 419
On a priori $C^{1,\alpha}$ and $W^{2,p}$ estimates for a parabolic Monge-Ampere equation in the Gauss curvature flows. By QINGBO HUANG and GUOZHEN Lu .......................................................... 453
Quadratic diophantine equations and orders in quaternion algebras. By GORO SHIMURA .......................................................... 481
The domain of definition of the complex Monge-Ampère operator. By ZBIGNIEW BLOCKI .......................................................... 519
Tight closure and plus closure in dimension two. By HOLGER BRENNER 531
