CONTENTS

295  Holomorphic Functions and Vector Bundles on Coverings of Projective Varieties
    Fedor Bogomolov and Bruno De Oliveira

315  Schubert Calculus via Hasse-Schmidt Derivations
    Letterio Gatto

323  A Modified Multifractal Formalism for a Class of Self-similar Measures with Overlap
    Pablo Shmerkin

349  A Second Main Theorem on Parabolic Manifolds
    Min Ru and Julie Tzu-Yueh Wang

373  A Second-order Invariant of the Noether-Lefschetz Locus and Two Applications
    Catriona Maclean

401  A Caveat on the Convergence of the Ricci Flow for Pinched Negatively Curved Manifolds
    F. T. Farrell and P. Ontaneda

407  Geography and the Number of Moduli of Surfaces of General Type
    Igor Reider
