CALCULUS OF VARIATIONS
and Partial Differential Equations

Pang P.Y.H., Tang H., Wang Y.
Blow-up solutions of inhomogeneous nonlinear Schrodinger equations 137

Zhang K.
Existence of infinitely many solutions for the one-dimensional Perona-Malik model 171

Molle R., Passaseo D.
Nonlinear elliptic equations with large supercritical exponents 201

Ma L., Chen D.
Examples for cross curvature flow on 3-manifolds 227

Bayard P.
Entire spacelike hypersurfaces of prescribed scalar curvature in Minkowski space 245

Comprehensively covered by Zentralblatt MATH, Mathematical Reviews, and Current Contents
