Contents

I. BELEGRADEK AND V. KAPOVITCH
Pinching estimates for negatively curved manifolds with nilpotent fundamental groups

M. BESTVINA AND M. FEIGHN
Counting maps from a surface to a graph

J.E. FORNAESS AND N. SIBONY
Harmonic currents of finite energy and laminations

D. GABORIAU
Invariant percolation and harmonic Dirichlet functions

L. GUTH
Lipschitz maps from surfaces

K. RAJALA
The local homeomorphism property of spatial mappings with distortion close to one

N. YEGANEFAR
$L^2$ cohomology of negatively curved Kähler manifolds of finite volume

GUOLIANG YU
Hyperbolic groups admit proper affine isometric actions on $l^p$-spaces
