Probability Theory and Related Fields

Continuation of Zeitschrift für Wahrscheinlichkeitstheorie

A. SPĂTARU
Strengthening classical results on convergence rates in strong limit theorems 1

M. CAPITAINE • M. CASALIS
Cumulants for random matrices as convolutions on the symmetric group 19

P. CAPUTO • F. MARTINELLI
Phase ordering after a deep quench: the stochastic Ising and hard core gas models on a tree 37

A. COLLEVECCHIO
Limit theorems for reinforced random walks on certain trees 81

J. FONTBONA
A probabilistic interpretation and stochastic particle approximations of the 3-dimensional Navier-Stokes equations 102

Y. HARIYA
Construction of Gibbs measures for 1-dimensional continuum fields 157
