Contents

On the scientific work of S. M. Nikol’skii 1005
O. V. Besov, V. A. Sadovnichii, and S. A. Telyakovskii

Non-local quasi-linear parabolic equations 1021
H. Amann

Optimal quadrature formulae 1035
B. Boyanov [Bojanov]

Simultaneous Lipschitz extensions 1057
A. Brudnyi and Yu. Brudnyi

On the non-linear equation of a $p$-adic open string for a scalar field 1077
V. S. Vladimirov

Optimization of boundary controls of string vibrations 1093
V. A. Il’in and E. I. Moiseev

Weighted averages, uniform distribution, and strict ergodicity 1121
V. V. Kozlov

Inequalities of Gagliardo - Nirenberg type and estimates for the moduli of continuity 1147
V. I. Kolyada

The theory of curves in differential geometry from the viewpoint of the theory of functions of a real variable 1165
Yu. G. Reshetnyak

Extremal problems for algebraic polynomials 1183
Bl. Sendov

Spaces on sets 1195
H. Triebel

Reaction versus diffusion: blow-up induced and inhibited by diffusivity 1217
M. Fila and H. Ninomiya

Communications of the Moscow Mathematical Society 1237

Belyi functions of dessins d’enfants of genus 2 with 4 edges
N. M. Adrianov and G. B. Shabat

Continued overleaf
Algorithm for the verification of identities in representable algebras of arbitrary signature over a ring
A. Ya. Belov

Derived categories of coherent sheaves and motives
D. O. Orlov

An integrable case of dynamical equations on $so(4) \times \mathbb{R}^4$
M.V. Shamolin

Annual author index
