Contents

Forgotten and neglected theories of Poincaré
V. I. Arnol’d

Integrable equations, addition theorems, and the
Riemann—Schottky problem
V. M. Buchstaber and I. M. Krichever

Two-dimensional Dirac operator and the theory of surfaces
I.A. Taimanov

Károly Tandori (obituary)

Communications of the Moscow Mathematical Society

Functional equations defining multiplication in a continuous
Krichever—Novikov basis
V. M Buchstaber and D. V. Leikin

Convergence to equilibrium of the wave equation in \( \mathbb{R}^n \) with
odd \( n \geq 3 \)
T. V. Dudnikova

Quantum cohomology of Grassmannians and cyclotomic fields
S. S. Galkin and V. V. Golyshev

Discrete approximation of American-type options
R. V. Ivanov

Almost sure convergence of kernel density estimators for
weakly dependent random fields
N.V. Millionshchikov

Billiards in unbounded domains reversing the direction of
motion of a particle
A. Yu. Plakhov

A note on the dual complex of a resolution of singularities
D. A. Stepanov

The normality of some elliptic functional-differential
operators of second order
E. M. Varfolomeev

A bound for the degree of regularity of a stochastic matrix
A.S. Vydrin

Mathematical Life

Vladimir Mikhailovich Tikhomirov (on his 70th birthday)

Programme "Young British and Russian mathematicians"
