CONTENTS

Counting by Weighing: An Alternative Sampling Scheme ........................................ 241
X. Wei and T. N. Sriram

Asymptotic Optimality of Change-Point Detection Schemes
in General Continuous-Time Models ................................................................. 257
M. Baron and A. G. Tartakovsky

A Two-Stage Procedure with Elimination for Partitioning
a Set of Normal Populations with Respect to a Control .................................. 297
T. K. S. Solanky

A Sequential Approach to the Behrens-Fisher Problem ..................................... 311
B. M. de Silva and V. B. Waikar

Second-Order Efficiency for Two-Stage Estimation of a Linear
Function of Normal Mean Vectors when Covariance Matrices
Have Some Structures ................................................................................. 327
M. Aoshima and Y. Takada
