CONTENTS

Bertolini, M. A., Mello, M. P. and de Rezende, K. A. Poincaré–Hopf and Morse inequalities for Lyapunov graphs 1
Blok, A., Oversteegen, L. and Tymchatyn, E. D. On minimal maps of 2-manifolds 41
Bonetto, E., Kupiainen, A. and Lebowitz, J. L. Absolute continuity of projected SRB measures of coupled Arnold cat map lattices 59
Cuny, C. On randomly weighted one-sided ergodic Hilbert transforms 89
Cuny, C. Addendum to ‘On randomly weighted one-sided ergodic Hilbert transforms’ 101
Fiebig, D. and Fiebig, U.-R. Embedding theorems for locally compact Markov shifts 107
Holland, M. Slowly mixing systems and intermittency maps 133
Jolissaint, P. The Haagerup property for measure-preserving standard equivalence relations 161
Kalinnin, B. and Spatzier, R. Rigidity of the measurable structure for algebraic actions of higher-rank Abelian groups 175
Leibman, A. Pointwise convergence of ergodic averages for polynomial sequences of translations on a nilmanifold 201
Leibman, A. Pointwise convergence of ergodic averages for polynomial actions of \(\mathbb{Z}^d\) by translations on a nilmanifold 215
Méla, X. and Petersen, K. Dynamical properties of the Pascal adic transformation 227
Niţică, V. and Pollicott, M. Transitivity of Euclidean extensions of Anosov diffeomorphisms 257
Pacífico, M. J., Pujals, E. R. and Vieitez, J. L. Robustly expansive homoclinic classes 271
Ruiz del Portal, F. R. and Salazar, J. M. A stable/unstable manifold theorem for local homeomorphisms of the plane 301
Papers to appear in forthcoming issues 319
